

Simple **ONE**

Inside the all-new
Simple One

Consistent,
dependable,
and ready for every
stretch ahead.

Range that lasts through your longest days

A red and black Yamaha NMAX scooter is shown from a side profile, parked on a light-colored paved surface. The scooter features a prominent red front fairing with black accents and a black seat. The background shows a clear blue sky with scattered white clouds and a range of mountains in the distance. The scooter's front headlight is on, and the overall scene is brightly lit.

Made to Move you

Because great
design moves
more than
just wheels.

Rider-centric console

Controls positioned
for effortless
access and pure
riding focus.

Effortless in every turn

A low, centered frame
keeps your rhythm
steady and your
control complete.

Worth the weight

Smart balance keeps
you steady through
turns, curves, and
every uneven stretch.

Battery in charge

A single, compact
5 kWh unit designed
for consistent,
lasting performance.

Steel tubular chassis

Designed to stay steady,
absorb movement,
and keep control
effortless.

Meet your motor

8.8 kW peak output
and 72 Nm torque
deliver instant,
effortless acceleration.

Brain built in

SimpleOS brings every function together on one intuitive, responsive display.

7" TFT Touchscreen LCD

A vivid, responsive display that keeps every detail clear and within reach.

Map My India Navigation

Find your way faster with in-built precision mapping. No phone required.

Call & Music Control

Control sound and calls effortlessly, with zero distractions.

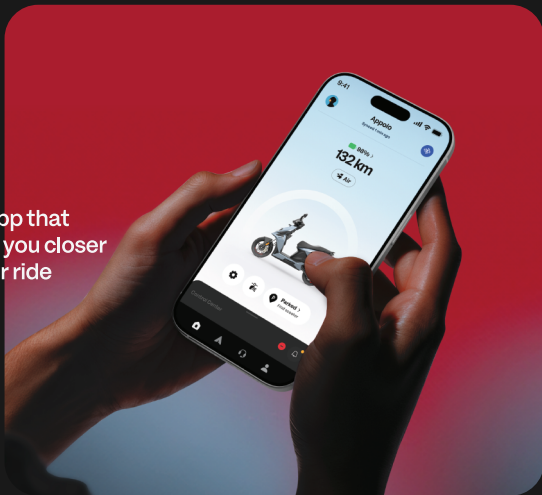

Message Alerts

Get important updates right on your display.

Simple Connect

One app that
keeps you closer
to your ride

Message Alerts

See key alerts on
your screen without
checking your phone.

Super Share

Share your journey &
much more in real time
with trusted contacts.

Ping My Scooter

Locate your scooter instantly,
even in a crowded space.

Find My Scooter

Track your scooter's
location anytime,
anywhere.

Push Navigation

Push routes from
your phone to your
dashboard in seconds.

Matter of traction

Now comes with
4 TRACTION MODES
tuned for every terrain.

Rain

Road

Rally

Track

Switch between Rain, Road, Rally and Track. Each mode is optimized for precision and control on every terrain.

Nothing left to chance

Advanced safety features that step in before anything does

Drop Safe

In the event of a fall, the motor cuts power instantly, keeping you safe from accidental acceleration

Theft and Tow Alerts

Get notified instantly if your scooter's moved or disturbed

Rapid Brake Alerts

Alerts during sudden braking, rear lights pulse rapidly to alert vehicles behind and prevent collisions

Little things. Huge impact.

Super Hold

Automatically holds position on slopes or inclines without using the brakes

Parking Mode

Move backward with precision for easy, confident parking

Guide me home light

Keeps the path lit for a few seconds after you park, so you walk away safely
